### **EXAMINER'S AMENDMENT**

The application has been amended as follows: The term "rotting" has been replaced with the term --rotating-- in line 2 of claim 8, while the term "uter" has been replaced with the term --outer-- in line 16 of claim 8.

### ***Allowable Subject Matter***

2. Claims 1-14 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a wheel cover assembly including a spinner mounted on a spinner shaft by a bearing, allowing the spinner to freely rotate relative to a wheel, and a non-rotating cap retained on a second bearing also located on the spinner shaft, the cap including a counter-weight so that the cap remains in a relatively fixed position during rotation of the wheel.

Yuan lacks a non-rotating cap mounted on a bearing that is supported by a shaft on which a freely rotating bearing-mounted spinner is also supported.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
